ABOUT ME

I'm a passionate Linux user and software developer with hands-on experience building apps, scripts, and practical tools. I enjoy exploring how systems work—especially Linux environments—and learning new technologies to solve real problems. I thrive on experimentation and continuous learning, and I bring curiosity, strong problem-solving skills, and a thoughtful approach to every challenge I take on.

EDUCATION

(2024 - 2028)

PICT

computer engineering

LANGUAGES

- Java
- JavaScript
- Python
- Vala
- Shell
- Kotlin
- R
- SQL

2x Hackthon winner

SKILLS

- application devleopment
- Deep Learning
- Agent developement
- Backend development
- Frontend Development

Hindi

English

WORK EXPERIENCE

SCIZERS-APP DEVELOPER

SEPT2025-FEB2026

- Developed mobile applications enhancing user experience across diverse platforms and devices.
- Implemented responsive design principles improving app functionality on various devices.

PROJECTS

Campus Pay | Jul 2025 – Aug 2025

Campus payment app with UPI QR scanning, universal QR generation, simulated payments, and admin tools for clubs, events, and registrations (Express.js backend).

Notesphere | Nov 2024 – Feb 2025

Campus note-sharing platform with ID scanning, user profiles, star-based ratings, and creator reputation, powered by a full Node.js + Express backend.

ChatBlaze | Mar 2025 – Present

AI chat application built with Kotlin Compose, supporting local TFLite models and external AI APIs for on-device and cloud-based conversations.

NewPulse | Oct 2025–Nov2025:-

An AI-powered news app for real-time, personalized discovery using NLP, embeddings, and offline-first design.

Outreach AI:

An offline LLM-powered cold outreach engine that generates hyper-personalized, tone-matched messages across email, WhatsApp, SMS, and social DMs using publicly available profile data and local AI models.

FRAMEWORKS USED

• Frameworks & Tools:

React Native, React,kotlin Compose,Node.js, Express, Git, Linux

• AI & Systems:

Tensorflow,langchain.langgraph,langsmith,pytorch,llamindex,smolagents,crewai,

Backend:-

Express.js,mongodb,qdrant db,java spring boot,Fastapi
